

## **Becky Wahl | Director of Quality and Innovation**

Becky Wahl joined CHAD in October 2017 as Director of Quality and Innovation. She came to CHAD with nearly 20 years of health care experience and an extensive background in implementing quality improvement programs, coordinating care services and policies, and developing innovative programs and strategies for health care delivery.

In her role, Becky will lead the association's development of strategies and initiatives related to value-based care and contracting, payment reform, health care utilization, cost and population health management. She will also be responsible for overseeing clinically-related networks, as well as leading quality improvement efforts and activities for CHAD and its member health centers.

Prior to joining CHAD, Becky was the Northland PACE Bismarck Site Manager for Northland Healthcare Alliance in Bismarck, N.D., where she was responsible for all disciplines and services provided through the center, including all administrative duties related to direct operations. She also served as an epidemiologist with the North Dakota Department of Health's Division of Disease Control, a provider relations specialist with Noridian in Fargo, N.D. and a health unit coordinator with Altru Health Systems in Grand Forks, N.D.

She received her bachelor of science in Biology from the University of North Dakota in Grand Forks and is currently working on a master of public health in public health informatics degree through the University of Illinois at Chicago. She also has received extensive training and education in care coordination, elderly care, epidemiology and computers.

Becky resides in Bismarck with her family.
